

Listen iDSP systems come equipped with Listen's new generation of personal listening products, iDSP or Intelligent Digital Signal Processing. The iDSP 72 MHz receiver revolutionizes how an RF system works, offering precise clarity with 20 dB less hiss than other RF receivers.

The new integrated neck loop improves the experience for people who have hearing aids and cochlear implants with telecoils. Sleek and small (smaller than an iPhone), the iDSP receiver has a field replaceable, non-proprietary rechargeable lithium-ion battery, making obsolete the use of alkaline and NiMH batteries. Battery life is eight hours, with a 2.5-hour charge time.

The result is an innovative personal listening technology and solution that delivers an exceptional listening experience for end users and an optimal experience for the venues that provide listening devices.

All iDSP systems include (see below for additional items for each level):

- One (1) LT-800 RF Transmitter (72 MHz)
- Four (4) iDSP Receivers (72 MHz) (with Li-ion battery)
- Two (2) LA-430 Intelligent Earphone/Neck Loop Lanyard
- Four (4) LA-401 Universal Ear Speaker
- Audio cable
- Signage

iDSP Prime Systems

LT-800/LR-4200

<p>Level I LS-53-072 \$1,694.99 MSRP (\$USD)</p>	<p>Includes the above + Telescoping antenna + 4-port USB charger</p>
<p>Level II LS-54-072 \$1,828.99 MSRP (\$USD)</p>	<p>Includes the above + Universal antenna kit + Rack mount kit + 4-port USB charger</p>
<p>Level III LS-55-072 \$2,118.99 MSRP (\$USD)</p>	<p>Includes the above + Universal antenna kit + Rack mount kit + charging tray</p>

Venues will find these systems ideal for applications when:

- The receiver channel is not changed regularly by the user
- Locking on one channel is needed, but programming multiple channels are not
- Assistive listening, single channel language interpretation, and personal use are desired

iDSP Advanced Systems

LT-800/LR-5200

<p>Level I LS-56-072 \$1,942.99 MSRP (\$USD)</p>	<p>Includes the above + Telescoping antenna + 4-port USB charger</p>
<p>Level II LS-57-072 \$2,076.99 MSRP (\$USD)</p>	<p>Includes the above + Universal antenna kit + Rack mount kit + 4-port USB charger</p>
<p>Level III LS-58-072 \$2,366.99 MSRP (\$USD)</p>	<p>Includes the above + Universal antenna kit + Rack mount kit + charging tray</p>

Venues will find these systems ideal for applications when:

- One receiver is used with multiple transmitters (audio sources) and users need the convenience of changing the channels themselves
- Programming of multiple channels is desired, so that users select only from the active channels
- Multi-language interpretation or a variety of audio sources need to be heard by a variety of listeners

Individual receivers or receiver packages are available options. iDSP individual receivers and receiver packages are designed to make it easy to order everything you need for an exceptional listening experience. Two versions are available: LR-4200-072 Intelligent DSP RF Receiver and LR-5200-072 Advanced Intelligent DSP RF Receiver.

iDSP LR-4200-072

LR-4200 Receiver

Standard Package

Advanced Package

LR-4200-072

\$189.00
MSRP (\$USD)

Intelligent DSP RF Receiver (72 MHz)

Includes Lithium-ion battery

LR-4200-072-P1

\$264.00
MSRP (\$USD)

Intelligent DSP RF Receiver Package (72 MHz)

Includes the above + integrated neck loop/lanyard + ear speaker

LP-40-072

\$1,903.00
MSRP (\$USD)

Intelligent DSP RF Receiver 6-Pack (72 MHz)

Includes the above + charging tray (6 of each)

LP-41-072

\$3,487.00
MSRP (\$USD)

Intelligent DSP RF Receiver 12-Pack (72 MHz)

Includes the above + charging tray (12 of each)

The LR-4200-072 receiver is ideal for applications when:

- The receiver channel is not changed regularly by the user
- Locking on one channel is needed, but programming multiple channels are not
- Assistive listening, single channel language interpretation, and personal use are desired

iDSP LR-5200-072

LR-5200 Receiver

Standard Package

Advanced Package

LR-5200-072

\$251.00
MSRP (\$USD)

Advanced Intelligent DSP RF Receiver (72 MHz)

Includes Lithium-ion battery

LR-5200-072-P1

\$326.00
MSRP (\$USD)

Advanced Intelligent DSP RF Receiver Package (72 MHz)

Includes the above + integrated neck loop/lanyard + ear speaker

LP-50-072

\$2,275.00
MSRP (\$USD)

Advanced Intelligent DSP RF Receiver 6-Pack (72 MHz)

Includes the above + charging tray (6 of each)

LP-51-072

\$4,231.00
MSRP (\$USD)

Advanced Intelligent DSP RF Receiver 12-Pack (72 MHz)

Includes the above + charging tray (12 of each)

The LR-5200-072 is ideal for applications when:

- One receiver is used with multiple transmitters (audio sources) and users need the convenience of changing the channels themselves
- Programming of multiple channels is desired, so that users select only from the active channels
- Multi-language interpretation or a variety of audio sources need to be heard by a variety of listeners
