

LS-ADA-072

ADA Basic FM Assistive Listening System

Configurations

LS-ADA-072-01 ADA Basic FM Assistive Listening System (72 MHz) (North America)

The LS-ADA-072 system meets the minimum requirements of the 2010 Americans with Disabilities Act (ADA) standards for accessible design. In addition to ensuring that public facilities are compliant; the system helps solve frustrating but common sound problems caused by distance, background noise, or poor room acoustics. This installed system includes a LT-803 Stationary Transmitter, two LR-200 Receivers with LA-161 single-piece earphone, neck loops, alkaline batteries and Assistive Listening Notification Signage Kit. The system can be ordered only on the 72 MHz frequency band, and can be customized if you need additional parts. Backed by Listen, this cost-effective solution will enrich your customers' listening experience in lecture halls, public meeting rooms, playhouses, classrooms, centers for the performing arts, and more.

Highlights

- Ensures public venues meet new 2010 ADA requirements and deliver an enriched listening experience.
