

# Listen EVERYWHERE

Demo Kit – Quick Start Guide – LW-DK14

## Introduction

Thank you for your interest in Listen EVERYWHERE. Here is some information to get your demo started. For more information and full product manual, please visit [www.listentech.com/support/manuals](http://www.listentech.com/support/manuals).

Download the Listen EVERYWHERE App

Connect App to Server

Connect smartphone to "Listen Everywhere" network.

Launch App

Once connected, open the Listen Everywhere app, tap "scan", select the channel to stream and enjoy!

## Power On and Connect Audio

Remove the power cord from the back compartment and connect to a wall outlet. Please wait 30 seconds after connecting the power cord to the wall outlet before pressing the power button on the power cube. The tablet audio is already connected to the Listen EVERYWHERE system, so simply tap on a video to begin playing the audio for "Channel 1".

### Optional

If you would like to connect a secondary audio source (from phone, computer or other source), remove the 3.5mm audio connector from the back compartment and plug into the audio source. To listen to this audio source, simply click on "Channel 2" in the app.
