

Listen EVERYWHERE

Utah Church Congregation Reconnects with Listen EVERYWHERE

Church Bingo Night

The River Oaks 5th Ward of The Church of Jesus Christ of Latter-day Saints is in West Jordan, Utah

PROBLEM

Social events, including church bingo nights, have been off the table for months at the River Oaks 5th Ward of The Church of Jesus Christ of Latter-day Saints in West Jordan, Utah. Many of its congregants are elderly, putting them at risk of severe complications if they were to contract the COVID-19 virus. Because of their elevated risk, these congregants were not leaving home or socializing.

SOLUTION

The congregation used Listen EVERYWHERE to host a socially distanced bingo parking lot event so congregants could get together safely.

Listen EVERYWHERE delivers crystal-clear audio via Wi-Fi to a free app on iOS and Android devices. The customizable app features welcome videos, text banners, channel labels, and more. Using the Listen EVERYWHERE system, the church broadcasts the audio from the caller's microphone to participants' smartphones or tablets. From there, participants could listen on their devices or connect the audio to any Bluetooth device, including car stereos or Bluetooth-enabled hearing aids.

The church served dinner, drinks, and treats carhop-style during bingo for an all-inclusive drive-in event.

"Once people were set up, they had a great experience! People in our community could connect for a few hours outside of a virtual call, and we all had fun!"

CARL BREWER,
CONGREGATION MEMBER

RESULT

Listen EVERYWHERE eliminated the barriers of an in-person gathering, allowing congregants to be together, play bingo, and practice social distancing.

The church had nearly 30 cars parked in the lot, with about 80 participants for bingo. Once everyone was set up, they had a great experience safely connecting with friends.

Church leaders didn't need to worry about spreading the virus via common surfaces or contact because there's no shared equipment.

It was easy to set up and simple to use with a little explanation.

IN APP FEATURES

Text Banners

Text banners allow you to insert updated content quickly and easily.

Sliding Promotional Banners

Upload ads, coupons, promotions, or special events banners that can click through to your menu, websites, or additional information.

Welcome Ad or Video

The first thing customers see when opening the app; set the number of seconds before your welcome ad or video can be skipped.

Custom Content

Link to websites, event agendas, PDFs, and any other custom content.

Custom Labels for Channels

Channel logos and other graphics make it easy for guests to find their desired channel.

Users download the free Listen EVERYWHERE app on their iOS or Android device. They simply open the app and choose the desired channel. From their device, they can then stream the audio to any Bluetooth-enabled device, including a car stereo or Bluetooth-enabled hearing aids.
