Upgrade to ListenIR

Why ListenIR?

Listen Technologies provides the best infrared assistive listening solution on the market with ListenIR. With advanced line of sight infrared technology, easily expandable systems, best-in-class sensitivity, and crystal clear sound, ListenIR delivers an exceptional listening experience.

With a variety of options to choose from, you'll be blown away by how easy it is to customize a system to meet your needs. Unsure of where to start? **Check out the chart below.**

Sennheiser	
HDI 830	Two-Channel Stethoset Receiver
SI 30*	Small Wideband Modulator
SI 1015*	Wideband Modulator
SZI 1015	2-Watt Radiator
SZI 1029	High-Power Radiator

* Sennheiser's modulators require a radiator to function.

ListenIR	
LR-5200-IR	Advanced Intelligent DSP IR Receiver
LT-84*	2-Channel IR Transmitter/Radiator Combo
LT-84*	2-Channel IR Transmitter/Radiator Combo
LA-141	Expansion Radiator
LA-141	Expansion Radiator

* LT-84 is an all-in-one transmitter and radiator, an additional radiator may not be needed for small spaces.

PRO TIP: use the ListenIR LT-82 transmitter and LA-140 radiator expanded coverage in large spaces. Questions about what to use? Please reach out! We're happy to assist.

Listening options for everyone!

ListenIR iDSP receivers have a standard 3.5 mm connector so you can choose how you listen.
