TECHNOLOGIES

Overview

This tech note explains how to place the AURI-RX1 into Shipping Mode and how to return the device to normal operation.

1

Shipping Mode is intended for devices that will remain powered off for extended periods, helping preserve battery life during storage or transport.

Entering Shipping Mode

To place the AURI-RX1 into Shipping Mode:

1. Press and hold **all five buttons** on the receiver simultaneously:
 - Power
 - Volume Up
 - Volume Down
 - Channel Up
 - Channel Down
2. Continue holding the buttons for approximately **3-5 seconds**.
3. Release all buttons once Shipping Mode icon appears.

Exiting Shipping Mode

To return the AURI-RX1 to normal operation:

1. Connect the receiver to **any power source**:
 - Auri Docking Station
 - USB-C charger
 - Computer USB port
2. The receiver will automatically exit Shipping Mode.

Once power has been applied, the receiver will operate as normal.
