How to Connect to an Auracast™ Broadcast

Auracast™ broadcast audio lets a venue send sound to nearby guests. Connect with a few easy steps and enjoy clear audio.

Check out the various methods of connecting to a broadcast.

Private broadcasts are protected and may require a password to connect.

AMPETRONIC

USE THE AURI-RX1 RECEIVER

The AURI-RX1 receiver makes it easy to connect to an Auracast broadcast. The LA-470 neck loop can be used for telecoil-enabled hearing devices.

- 1 If scanning is available, press the right button below the magnifying glass to scan.
- 2 Use the volume buttons or left button to find your broadcast.
- 3 Press the right button to select the broadcast.

SCAN A QR CODE

Look for printed QR codes near your seating, gate, or service area.

Unlock your phone and scan the QR Code with your phone camera. Your phone will prompt you to join.

USE YOUR PHONE'S SETTINGS (ANDROID 15+)

- 1 Make sure compatible earbuds or hearing aids are on and connected.
- 2 Go to Settings → Bluetooth.
- 3 Tap the gear next to your earbuds' name.
- 4 Look for "Find a broadcast," "Listen to Auracast," or "Audio streams."
- 5 Select the stream name to start listening.

* Steps may vary

USE YOUR HEARING DEVICE'S APP

- 1 Open the official app you normally use for your hearing aids or earbuds (e.g., ReSound, Oticon, or Philips).
- 2 Look for Auracast, Audio Sharing, or Broadcast Search.
- 3 Tap it to search for the audio stream and listen.
